I wanted to know which type of popcorn pops fast. I wanted to so I could make popcorn faster. The three brands were the ones I use: white popcorn, lieutenant popcorn, popsecret.

I think white popcorn will pop faster because I usually use it and it works but I'm not sure if it'll work the FASTERST.

I used 3 types of popcorn, an air popper, a bowl, and a chart

I counted 100 kernels in my hand from each brand, then I popped it in my air popper. I timed each popcorn brand for 2 minutes. It popped 6 of the 100 kernels from white popcorn, 51 out of 100 from popsecret and 6 out of 100 popped from lieutenant.

I learned that pop secret pops the most kernels.

My conclusion is that popsecret pops much faster. It might be because popsecret is a better quality brand than Safeway store brands.
